EXPLANATORY STATEMENT PURSUANT TO SECTION 102 AND 110 OF THE COMPANIES ACT, 2013:

The following Explanatory Statement pursuant to Section 102 and 110 of the Companies Act, 2013 ("Act") sets out all material facts relating to the special business accompanying Notice of Postal ballot.

ITEM NO. 1:

APPROVAL OF MATERIAL RELATED PARTY TRANSACTION(S) WITH PARAS ANTI-DRONE TECHNOLOGIES PRIVATE LIMITED ("SUBSIDIARY COMPANY").

The Company is an Indian defence engineering company engaged in providing products and solutions for Defence and Space applications through its principal business verticals, namely Optics & Optronic Systems and Defence Engineering, comprising Defence Electronics, EMP Protection Solutions and Heavy Engineering.

Paras Anti-Drone Technologies Private Limited ("Subsidiary Company") is a subsidiary of the Company in which the Company holds 55% equity stake, Subsidiary Company is engaged in the design, development and manufacture of advanced radio frequency ("RF") and defence technologies, including radars, antennas, software-defined radios ("SDRs"), drone detection and jamming systems, Electronic Warfare systems and other solutions for anti-drone, situational awareness and Intelligence, Surveillance and Reconnaissance ("ISR") applications.

In view of the growing business requirements of the Company and Subsidiary Company, approval of the Members is sought for material related party transaction(s) aggregating up to ₹150 crore (Rupees One Hundred and Fifty Crores only), plus applicable taxes, for a period of one year. The proposed transactions may include, inter alia, sale or purchase of goods and services, allocation or execution of work orders, rent or lease arrangements, subscription to Optionally Convertible Preference Shares ("OCPS"), investments, corporate guarantees, reimbursement of expenses, loans, deposits and such other transactions as may be required in the ordinary course of business from time to time.

The proposed transactions are intended to be undertaken at arm's length and in the ordinary course of business and, shall remain subject to applicable laws, regulations, internal approval processes and the Company's related party transaction framework.

The Company and its group entities, including Subsidiary Company, operate in specialised defence and technology domains and, in the ordinary course of business, secure orders and undertake projects within their respective areas of expertise. Under the existing business arrangement, work orders received by the Company may, depending upon the nature and scope of the project and the specialised expertise, technology and capabilities required for execution, be outsourced to the relevant subsidiary or group entity for undertaking the same.

Such an arrangement enables the group to efficiently utilise the specialised capabilities and resources available across its entities. The Company's established resources, including experienced manpower, engineering expertise, manufacturing infrastructure, testing facilities, quality systems, equipment and project execution capabilities, may be utilised for the efficient and cost-effective execution of projects undertaken by the group entities.

The collaborative operating model enables the respective entities to focus on their specialised areas, including technology development, product specialisation, customer engagement and market expansion, while leveraging the established capabilities and infrastructure available within the group. This facilitates effective project execution and timely delivery of products and solutions to customers.

Consequently, various operational, commercial and financial transactions may arise between the Company and its related parties in the ordinary course of business. In view of the anticipated growth in business volumes and project opportunities, the proposed increase in the related party transaction limit is intended to provide the necessary flexibility to undertake transactions relating to lease of premises, project execution, resource sharing, operational support, corporate guarantees, loans, deposits, investments and other legitimate business requirements.

The proposed enabling approval will provide the Company with the flexibility to support business growth opportunities within the group, while ensuring that all transactions are at arm's length and remain subject to applicable legal and regulatory requirements, internal approval processes and appropriate governance mechanisms.

Where considered commercially appropriate and permissible under applicable laws, financial support in the form of guarantees, loans, investments or other forms of assistance may be extended to group entities to facilitate business expansion, project execution and working capital requirements. Such support may enable the relevant entities to pursue larger business opportunities

Any such transaction will be undertaken based on the relevant business requirements and commercial considerations at arm's length and will remain subject to applicable laws, regulatory requirements, internal approval processes and appropriate oversight mechanisms.

The business activities of Subsidiary Company are aligned with the strategic objectives of the Company. The Company maintains appropriate oversight over transactions with its related parties through its established governance framework and evaluates such transactions based on business requirements, commercial considerations and the interests of the Company and its stakeholders.

The proposed resolution is therefore intended to provide enabling approvals for transactions arising from an integrated operating structure, under which the Subsidiary Company may leverage the resources, expertise, infrastructure and execution capabilities available within the group for effective implementation of projects and fulfilment of customer commitments. With the expected growth in business activities and project opportunities, the corresponding value and volume of such transactions may also increase, necessitating appropriate approval limit under the applicable related party transaction framework.

The Audit Committee, comprising a majority of Independent Directors, had previously reviewed the proposed related party transaction at its meeting held on August 7, 2026. The proposal was subsequently placed before the Members for approval at the 17th Annual General Meeting ("AGM") held on September 11, 2026. While the resolution was not carried out at the AGM, the Company has now provided a clearer explanation of the proposal to ensure it better align with Member expectations.

Consequently, the Company is seeking fresh approval from the Members for the said material related party transaction with the Subsidiary Company, for an aggregate amount not exceeding ₹150,00,00,000 (Rupees One Hundred and Fifty Crore Only), plus applicable taxes. The proposal was comprehensively reconsidered by the Audit Committee at its meeting held on October 29, 2026, subsequent to taking on record the statutory compliance certificate jointly issued by the Managing Director and the Chief Financial Officer. This certificate affirms the financial accuracy of the underlying transaction data, the arm's-length nature of the pricing frameworks, and compliance of internal controls with RPT Industry Standards. The resubmitted proposal stands supported by exhaustive disclosures and a robust business rationale detailing the mutual synergies and operational benefits accruing to both entities.

Based on the information and details placed before it, the Audit Committee satisfied itself that the proposed related party transaction was in the ordinary course of business, on an arm's length basis, and in the interest of the Company. The Audit Committee also reviews related party transactions on a quarterly basis.

Based on the recommendation of the Audit Committee at its meeting held on October 29, 2026, the Board of Directors, at its meeting held on even date, approved the proposed material related party transactions, subject to the approval of the Members, for a period of one year.

The Board of Directors is of the view that the proposed resolution will provide the Company with the necessary flexibility to pursue business opportunities, optimise utilisation of resources and capabilities across the group, facilitate efficient execution of projects and support the Company's long-term business objectives, while maintaining appropriate governance, regulatory oversight and compliance

Accordingly, the Board recommends the resolutions set out in the accompanying Notice for approval of the Members. The requisite disclosures under the applicable RPT Industry Standards and the SEBI Master Circular dated January 30, 2026, read with the SEBI Circular dated June 26, 2025, are set out below:
